Bachelor of Science, Honours in Psychology

Sep 2015 – Nov 2019

Carleton University, Ottawa, ON

PUBLICATIONS

“Does screen time make a difference? A longitudinal study on youth screen time and well-being”, Insights on Canadian Society, March 20, 2026

“Consuming user-generated videos and its impact on wellbeing”, Insights on Canadian Society, May 21, 2025

“Half of racialized people have experienced discrimination or unfair treatment in the past five years”, Statistics Canada, May 16, 2024

“Recently evicted people tend to be younger, have financial difficulties, and report having low trust in others”, Statistics Canada, Apr 12, 2024

“One in four Canadians are unable to cover an unexpected expense of \$500”, Statistics Canada, Feb 13, 2023

“Using Technology to Access Mental Health Support Services for International Students Attending American Colleges and Universities”, JED Foundation, Mar 1, 2020

EXPERIENCE

Statistics Canada – Office of the Chief Statistician – Analyst, EC-04 – Ottawa, ON

Nov 2025 – Mar 2026

- Reviewed briefing notes and memos for Chief Statistician approval, checking content quality, alignment to agency priorities, and readiness for submission.
- Analyzed feedback and messaging from the Chief Statistician and advised the Departmental Secretary on key agency priorities.
- Liaised with Assistant Chief Statisticians and their executive offices on various files submitted to the Office of the Chief Statistician to ensure material and documentation were accurate, aligned with agency priorities, and submitted by the deadline for the Chief Statistician.
- Created workflow automations using Microsoft 365 products, including Lists and Power Automate, in order to automate tasks and notify task owners of new dockets.

Statistics Canada – Centre for Social Data Insights and Innovation – Analyst, EC-04 – Ottawa, ON

Nov 2022 – Nov 2025

- Wrote speech content for the Chief Statistician for 20+ events delivered to domestic and international audiences on health, social statistics, and labour market trends.
- Designed and proposed a set of three interrelated studies—two quantitative and one qualitative—analyzing relationships in the digital era. The project was valued at approximately \$30,000 and was approved for funding by the Centre for Social Data Insights and Innovation.
- Updated data from Statistics Canada data holdings and produced descriptive statistics on various metrics such as poverty and well-being data for external clients and other internal teams

- Produced combination charts in MS Excel, mapping historic trends and projections of the number and proportion of racialized and Indigenous populations in Canada
- Analyzed 10,000+ survey observations across several datasets in R, SAS, and Stata using descriptive and inferential statistics, bootstrap weights, and significance testing to assess affordability, eviction, and quality-of-life trends in Canada.
- Lead author and statistician for several articles disseminating data findings to the public and additionally served as bilingual spokesperson to address questions from the media via phone interview and email and the general public through Statistics Canada's social media accounts

Statistics Canada – Centre for Population Health Data – Analyst, EC-02 – Ottawa, ON

Jun 2021 – Nov 2022

- Project managed four multidisciplinary teams to deliver the user guide for the Survey on Access to Health Care and Pharmaceuticals During the Pandemic ahead of deadline
- Calculated prevalence rates and produced three-way crosstabulations based on disaggregated populations (e.g., sex, age, marital status) using SAS and presented findings to senior management
- Efficiently performed block, integrated, end-to-end, and user acceptance testing on survey content using Blaise and Electronic Questionnaire (EQ) software
- Researched current and prospective health and health policy trends regarding COVID-19 (e.g., number of projected doses, vaccine passport) and made recommendations to senior management for content development
- Served as lead coder for Other Specify Long Answer (OSLA) content, responsible for training and leading coders to recode survey OSLAs to more accurately capture responses using existing categories
- Analysed derived variables for relevance and made recommendations to senior management to improve clarity, reduce redundancies, and perform required updates to ensure relevance
- Analysed changes in content delivery from 2015 to 2022 and developed and presented a content plan for 2023-2024 to senior management
- Recorded detailed notes during quality control testing of surveys and made recommendations to external stakeholders to increase accessibility and clarity of language

TELUS Health – Coordinator, Global Partners – Ottawa, ON

May 2020 – Jun 2021

- Designed Excel dashboards to track SLA compliance and quality assurance results for partners, supporting pricing negotiations and highlighting improvement areas
- Authored the first edition of the Global Business Manual, a manual detailing multi-departmental processes involved in the lifecycle of acquiring and maintaining a new global client
- Successfully onboarded and oversaw the launch of over 500 global clients within five months
- Identified areas of potential revenue leakage and prepared briefing materials for senior management, recommending solutions to save TELUS Health thousands of dollars annually
- Project managed new global phone lines by coordinating multiple departments, resulting in successfully implemented lines without any interruption in service to clients
- Researched detailed information on existing partners to provide accurate responses for requests for proposals, which assisted in successfully acquiring new global business
- Advised management on sensitive communications with stakeholders and made recommendations for recruitment of prospective partners and internal staff

TELUS Health – National Clinical Communications Administrator – Ottawa, ON

Oct 2019 – May 2020

- Maintained advanced proficiency in MS Excel by regularly producing pivot tables, consolidating large amounts of data, and cross-referencing formulas across multiple reports
- Paid close attention to detail to deliver highly accurate reports presenting big-picture summaries to senior management by or before deadlines
- Performed systematic searches through scientific databases and collaborated with the primary researcher to co-author scientific research
- Assigned as research team lead to orient and guide incoming student interns in publishing their research findings

- Used judgment and discretion to make counsellor recommendations to management for high-risk mental health cases
- Demonstrated initiative by seeking training opportunities to perform tasks beyond the normal scope of work
- Developed over a dozen online questionnaires using Smartsheet software in order to assist with the collection, synthesis, and application of stakeholder data, which facilitated the presentation of high-level trends to senior management
- Performed administrative file reviews to collect and measure key performance indicators (KPIs) of domestic Employee Assistance Program (EAP) counsellors' performance and presented the results in counsellor scorecards, which were used by the Chief Clinician to provide meaningful and objective feedback to counsellors during performance reviews

Stacey Price Design – Communications Lead – Ottawa, ON

Apr 2018 – Apr 2020

- Successfully created and cultivated followers across multiple social media platforms: Facebook (490+ followers), Instagram (400+ followers), and Pinterest (750+ monthly viewers)
- Researched, analysed, and presented analytics of the social media platforms to management in order to optimise the timing of publication and content of material
- Utilized discretion and judgement when posting through social media
- Regularly liaised with management and took an active role in setting objectives, creating plans, and implementing strategies to maintain and grow the company's client base
- Creator and ongoing maintainer of the website www.staceypricedesign.com, which resulted in expanding the company's client base and successfully brought in new clients

Elections Canada – Bilingual Registration Officer – Ottawa, ON

Oct 2019

- Extracted pertinent information to expedite the voting registration process for a high volume of people
- Identified and resolved problems in a timely fashion without sacrificing the accuracy of details

- Improved team performance by guiding and motivating colleagues
- Demonstrated a courteous and professional demeanor while working in a high-stress, high-workload environment

Research on Emotions and Addictions Development and Methodology (READY) Lab – Research Assistant – Ottawa, ON

Aug 2018 – May 2019

- Researched and generated interesting content based on current and relevant research findings
- Briefed the supervisor weekly on updates and provided minutes of meetings
- Actively participated in meetings with READY Lab team members
- Utilized discretion and judgement when posting through social media
- Collaborated with the READY Lab team members through Skype, email, and face-to-face meetings
- Assisted a Master's student's thesis research by transcribing recorded interviews on youth drug usage and sources of information on acquiring and using drugs
- Respected confidentiality of sensitive material contained in interviews
- Paid close attention to detail to ensure transcribed interviews were as accurate as possible and contained everything included in the recordings
- Successfully transcribed several hours' worth of interviews and shortened the amount of time required to complete the thesis project

VOLUNTEER EXPERIENCE

Shepherds of Good Hope – Soup Kitchen Attendant – Ottawa, ON

Mar 2021 – Mar 2026

- Served meals to guests from diverse backgrounds and provided an inclusive and supportive environment by engaging with them in a courteous and respectful manner
- Assisted with meal preparation, including washing, peeling, and chopping vegetables, making sandwiches, and plating dishes
- Adhered to strict hygiene and safety standards such as wearing a mask, hairnet, and gloves for the protection of guests, volunteers, and staff

- Collaborated with a team of volunteers and staff and ensured a smooth and efficient coordination of operations in a fast-paced kitchen environment
- Contributed to Shepherds of Good Hope's mandate by providing food, support, and a sense of community to vulnerable populations

CAPE – Capital Pride Parade Volunteer – Ottawa, ON

Aug 2023

- Set up and organized CAPE's onsite welcome tent, including the display of merchandise and refreshments
- Extended a warm and hospitable welcome to all participating members, distributing t-shirts and banners to create an inclusive environment
- Actively participated in the parade, contributing to an atmosphere of solidarity and respect

RBC Bluesfest – Box Office Attendant – Ottawa, ON

Jul 2022 and 2023

- Delivered excellent customer service by communicating respectfully and maintaining a calm and courteous demeanor in a fast-paced, high-workload environment
- Efficiently processed hundreds of financial transactions per day by selling from an on-site box office
- Quickly and accurately entered sales using the Square point-of-sale system
- Organized and distributed will-call tickets, paying close attention to detail to ensure tickets were correctly filed and distributed
- Contributed to creating a safe and positive environment for guests, performers, and fellow volunteers by maintaining a positive attitude and complying with and communicating safety standards

Distress Centre of Ottawa and Region – Crisis Line Responder – Ottawa, ON

Dec 2017 – Dec 2018

- Listened attentively and empathetically to callers from a diverse range of backgrounds going through a mental health crisis
- Provided emotional and cognitive support to callers and ensured their safety and future mental health

- Used discretion and judgement to ensure the privacy of callers
- Cultivated the ability to work in a stressful and emotional work environment
- Supported co-workers in a stressful environment
- Connected callers to appropriate local resources that were relevant to their mental health crisis and assessed the safety and well-being of the caller and surrounding individuals

Geomatics and Landscape Ecology Research Lab – Research Assistant – Ottawa, ON

Apr 2016 – Aug 2016

- Assisted a Master's student by diligently collecting and accurately recording raw data to improve statistical analysis
- Actively participated in meetings with the Master's student to discuss plans and update each other on the status of the research
- Conducted quality control of data, and successfully demonstrated highly accurate data recording
- Completed tasks with minimal supervision
- Developed time management skills to ensure research was delivered in a timely fashion
- Performed data entry in an efficient manner and successfully decreased the amount of time required for the completion of the thesis project
